Ideation Phase

Requirement Analysis – Customer Journey Map

Date	04 January 2026
Team ID	SWTID-2026-2136
Project Name	Automating Employee Data

Scenario

Managing employee data using an automated system in ServiceNow (from data upload to usage in incidents).

Steps / Journey

1. Enter (Start)

- **HR/Admin identifies need to manage employee data**
- **Prepares employee data file (Excel/CSV)**

Interactions:

- **Excel file, local system**
- **HR/Admin**

Goal:

Help me upload employee data easily

Positive:

- **Easy to prepare data**

Negative:

- **Manual data errors**

Opportunity:

- **Provide data validation before upload**

---

2. Browse / Import Data

- **Upload file into ServiceNow using Import Sets**
- **Create staging table**

Interactions:

- **ServiceNow platform**
- **Import Set module**

Goal:

Help me import data without errors

Positive:

- **Bulk upload saves time**

Negative:

- **Mapping confusion**

Opportunity:

- **Provide clear field mapping guide**

---

3. Engage (Transform Data)

- **Create Transform Map**

- **Map fields to sys_user table**
- **Execute transformation**

Interactions:

- **Transform Map**
- **System database**

Goal:

Help me correctly store employee data

Positive:

- **Automated insertion**

Negative:

- **Errors if mapping is wrong**

Opportunity:

- **Add validation rules**

---

4. Use System (Application Stage)

- **Use dot walking in Incident form**
- **View employee details (Department, Email, Manager)**

Interactions:

- **Incident form**
- **Users**

Goal:

Help me quickly access employee details

Positive:

- **Real-time data display**

Negative:

- **Complexity for beginners**

Opportunity:

- **Simplify UI**

---

5. Exit (Completion)

- **Data successfully stored and used**
- **Incidents assigned to employees**

Interactions:

- **ServiceNow users**

Goal:

Help me ensure system works correctly

Positive:

- **Efficient workflow**

Negative:

- **Need testing**

Opportunity:

- **Add automated testing**

---

6. Extend (After Use)

- **Data updated automatically**
- **System improves over time**

Interactions:

- **Admin, system**

Goal:

Help me maintain updated records

Positive:

- **Reduced manual effort**

Negative:

- **Dependency on system**

Opportunity:

- **Add monitoring & alerts**
